All previous rejections and/or objections are hereby withdrawn.

Claims 1-18 and 20 are rejected under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation that applicants' particle sizes are "volume average" was not disclosed in the specification as filed and is therefore new matter.

Applicants' arguments filed 9-10-03 have been fully considered but they are not deemed to be persuasive.

The term "volume average particle size" does not appear in the specification as filed nor does the specification as filed appear to disclose the use of the Microtac Ultra Particle Analyzer nor have applicants shown that the Microtac Ultra Particle Analyzer yields particle sizes which are volume average particle sizes.

Applicants' amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a

IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
